Stone Child College Beginning Farmer and Rancher Resource and Technical Assistance Project

Tuesday
December 12, 2017
5:30 to 6:30 PM
STONE CHILD COLLEGE

Forage Evaluation & Laboratory Analysis Mineral Supplementation

On Tuesday, December 12th a Beef Cattle Specialist and a Forage Specialist will be at Stone Child College to present information on hay & forage evaluation, lab testing and interpretation, and mineral supplementation in relation to cattle feeding.

All individuals interested in expanding or starting an agricultural products based business are encouraged to make contact with the RTAP project. Individuals such as youth, beginning farmers and ranchers, veterans, women, minorities and groups that have been historically underserved in the agricultural industry are encouraged to participate.

Please contact Mary Ruth St. Pierre at Stone Child College 406-395-4875 ext 224
Aaron Aquino at Stone Child College 406-395-4875 ext 220
