

Program Learner Outcome (PLO) Assessment

Key learner outcomes are outlined for each academic program and can be found in the SCC Course Catalog under each academic program's description

(<https://stonechild.edu/images/PDFs/SCC%20Catalog%202018.2020.pdf>).

2019-2020 Program Learner Outcome assessment data were gathered from all degree programs and were used to conduct an analysis of disaggregated student data. Proficiency percentages were calculated by taking the number of PLO Scores that were proficient (scores of at least a 2) and dividing by the total number of PLO scores.

F 19: Program Assessment: 85% proficient N=240 (number of learner outcomes assessed)

S20: Program Assessment: 83% proficient N=273 (number of learner outcomes assessed)

Average % 2019-2020: 84%

2019-2020 Program Proficiency Disaggregated Data

Average % Proficient for all SCC students	84
Average % Proficient by PELL Eligible	83
Average % Proficient by not PELL Eligible	85
Average % Proficient 1st Generation College Student	84
Average % Proficient not 1st Generation College Student	80
Average % Proficient for Males	80
Average % Proficient for Females	85
Average % Proficient by Chippewa Cree Tribal Members	84
Average % Proficient for Other Tribes	86
Average % Proficient for American Indian students	83
Average % Proficient for Students of Other Races	91
Average % Proficient for students 18-21	81
Average % Proficient for students 22-25	83
Average % Proficient for students 26-30	77
Average % Proficient for students 31-35	81
Average % Proficient for students 36-40	90
Average % Proficient for students 41-45	94
Average % Proficient for students over 45	100

Proficiency percentages range from 77-100% with very little variation among the student groups.
